Blade and Soul has many crafting professions that players can learn once they reached level 11 and they can learn it in Jadestone Village. There are many crafting professions, depending on what you want to craft. The crafting system does not require players to run around to gather materials. Instead, one needs only to discover the materials first-time and players are able to order the item and wait for the product. \*players no longer need to discover the samples. After joining the guilds, By default, players can access their professions with the key. It can take up to 48-hours 7 days to finish depending on the item ordered. (New) materials can be ordered for each guild with cash. there are 4 types of materials a player can order. Overall, Normal, Premium and Special processing materials. The Professions are broken-down into two categories: crafting and gathering. Each player can choose up-to-2-crafting-and-2-gathering-professions. They can be changed at any time, but the player will sacrifice all progress in the profession they choose to unlearn. To be more specific, Players will lose all the Guild Rank that they have accumulated in their abandoned profession. However, they still retain the recipes and samples that they already collect.
